

Residential Energy Efficiency Project

A project of Waterloo Region Green Solutions
Working together for healthier homes and sustainable communities.

Participating Contractors List 2010

This list is a starting point for choosing a contractor. You may hire any contractor you like, not limited to this list, so long as ecoENERGY criteria are met. REEP recommends that you get quotes from at least three contractors, and that you get a written contract from the contractor that you choose to ensure price and quality. Please let us know about your experience. This will help ensure quality of listed contractors.

Listing a contractor below does not constitute a recommendation by REEP. These contractors certify that they: Hold all relevant licenses to perform the work they offer; Hold liability insurance for at least \$1 million; Comply with all applicable laws, standards and manufacturer's instructions; Will remove waste generated from the work from the property; Will talk to you and your energy advisor if there are different opinions regarding the recommendations. Any contractor who meets these standards is welcome to apply for a listing.
