

Residential Energy Efficiency Project

A project of Waterloo Region Green Solutions

Home Energy Evaluation from REEP

- Get Expert Advice** – Learn about your home’s energy performance
- Save Money** – Follow our recommendations and save on your utility bills
- Receive grants** – Qualify for Ontario Home Energy Savings Program grants

Here’s How it Works:

Step One: Your First Evaluation

- Call REEP (519-744-9799) and one of our Certified Energy Advisors will assess your home
- You get a home energy report including recommendations and grant information
- **Grants are only available for work done after your initial evaluation**

Step Two: Renovate!

- Improve your home’s energy performance, with our recommendations as a guideline

Step Three: Your Follow-up Evaluation

- Call us back to verify the changes you made and apply for grants on your behalf
- You have 18 months, or until March 31, 2011 to finish renovations for them to qualify

Step Four: Get Your Grants

- You’ll receive a provincial grant cheque (see www.reepwaterlooregion.ca for details)
- Enjoy monthly savings on your energy bills – an average of 28% per year!

Evaluation Costs (NO TAX: REEP is a charitable organization and does not charge tax)

	Initial Evaluation	Follow-up Evaluation	Total Cost of Both (after rebate)
Cambridge, Waterloo, North Dumfries, Wellesley & Woolwich	\$325 (-\$150 rebate)	\$195	\$370
Kitchener & Wilmot*	\$265 (-\$132.50 rebate)	\$155	\$287.50

Square footage fee applies for homes larger than 3,000 square feet. Provincial rebate covers half of the cost of the initial evaluation to a maximum of \$150. Cost is subject to change. Call REEP to confirm the price. *Thanks to Kitchener Utilities and Kitchener-Wilmot Hydro for reducing the price of the initial evaluation and the follow-up evaluation for Kitchener and Wilmot residents who have an initial evaluation before December 31, 2010.
